1. Feedback Received from Students

This questionnaire is designed to make a survey of the institutional feedback. The questionnaire consists of five sections comprising 31 questions. The major sections are:

1. Course Content
2. Teaching Learning Process
3. Curriculum /Syllabus / Evaluation process
4. Library/ Sports/others
5. Administration.

The activities of the institution in the above five sections are being analyzed to create a quality profile for the year in relation to institutional vision and goals. The results would enable the institution to create a quality index profile. The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance must play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The Student Feedback Approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. In each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

The main objectives of the feedback system are as follows:

- To provide the platform to the students in identifying a greater role in the teaching learning process
- To help the faculty in improvement in the teaching methodology at the college.
- To develop a communication channel between the management and students.

- To maintain the functioning of the college in the field of teaching learning process, library, sports, administration, etc at its level best.

The 5 major sections of the feedback survey are distributed as follows:

- Course Content
- Teaching Learning Process
- Curriculum/Syllabus/Evaluation process
- Library/Sports/Others
- Administration

The quality of education depended on the overall academic environment of the institution, a well-furnished and stocked library, Necessary computer facilities, and well-equipped labs are the infrastructural priorities. The output (90%) indicates the facilities available at are good enough. The quality education could come only if there were quality teachers who were good communicators. The output more than 85% shows a very good environment of teaching at SVMM, ROOPANGARH. Apart of this alumni and parent feedback is also excellent towards the institution.
