Higher Education for Girls

EDUCATE
A GIRL
EMPOWER
THE WORLD

Bridging the gap: "bringing rural girls in to higher education"

1. TITLE OF THE PRACTICE

Higher Education for Girls

2. OBJECTIVES

- Empowerment and Gender Equality
- Economic Empowerment and Poverty Alleviation
- Community and Social Development
- Educational and Structural Goals
- Specific Professional Goals

3. THE CONTEXT

Rural girls face significant barriers to tertiary education including socio-cultural, economic, and infrastructure constraints, that result in a sharp decline in enrollment and higher dropout rates compared to urban counterparts. Bringing rural girls into higher education in India is a critical development priority aimed at breaking cycles of poverty, reducing gender disparity, and promoting national growth. It is a noble act to Educated rural women helps in gaining employment, start businesses, and achieve financial independence. This economic empowerment not only improves their lives but also uplifts their families, as educated women often invest in their children's education and health and in family planning. Educated women tend to have better knowledge of health, hygiene, and reproductive rights, leading to lower infant mortality and healthier communities. So to educate Rural girls helps in Developing responsible citizens who can participate in local governance and community development initiatives.

4. THE PRACTICE

Under the guidance of IQAC every year staff of S.V.M.M, Rupangarh used to visits the houses of the 12th pass girl in the village and tells them and their parents about the importance of higher education and all government scheme about the scholarship provided by the government to the girl child for their higher education. We hope that in future our passed out students will enthusiastically come forward and motivate others also to take admission in the college for their betterment.

5. PROBLEM ENCOUNTERED

- Our staff members sometimes found it difficult to explain the villagers about the benefit of higher education to the girl child as they believe that girl will go to the other home after marriage, so why to invest money to girl child ? They have their own preconceived notions about the girl's education. Parents of rural area believe that traditional roles that restrict women to domestic work only. In many occasions parents act negatively to teach their girl child though their daughters wants to study.

6. CARE TAKEN

Our college staff educate the students properly and arrange extracurricular activities for their wholesome development also. Our college also provides skills-based training that helps in preparing the girls for specific, high-demand job markets. They are taken care properly in the college.

7. RESOURCES REQUIRED

As per the requirement.

8. EVIDENCE OF SUCCESS

We are happy to announce that this year we enrolled 98 girl students. Our two students got Scooty in the session 2023-24 and six students got Scooty under 'kali Bai Yojana' in the session 2024-25. Our student Ms. Anchal Vashnav got award as best defender in Open Kabaddi Competition in Tyod Gram in 2023-24 and Ms. Pooja Chaudhary stood third in Triple Jump in 37th inter college athletic Tournament organized by M.D.S.University,Ajmer in session 2023-24..
